Remarks from the #1: New Horizons

Brothers of Chi Psi,

It is an exciting time to be a Chi Psi at Purdue! This past semester, our Alpha saw incredible growth. We had our first ever Formal (pictured below), attended the alumni networking event in Chicago, and initiated 8 Brothers to increase our total returning membership to 46.

Additionally, we are so excited and proud to announce that we will have a Lodge next year! 17 of our Brothers will be moving into the middle of Purdue's Greek community, and it will go a long way in helping both our internal and external growth. Our goals are to use the Lodge to cultivate a deeper Brotherhood, boost sorority relations, and increase our Alpha's GPA while still recruiting gentlemen who exemplify the values of Chi Psi. Needless to say, this is a monumental milestone to reach this early on in our Alpha's history! I hope you all can share in our excitement and visit our Lodge for our Opening Ceremony and event-filled weekend on September 13 and 14! We would love to host you and show you around West Lafayette. The future of Alpha Epsilon Tau is bright, and I can't wait to see what our men will achieve next year!

A Growing Brotherhood

By Nathan Chapman, ’26

It has been quite the year for Alpha Epsilon Tau since we received our charter and officially became an Alpha of Chi Psi. Since then, we have initiated 17 young gentlemen who have already stepped up into leadership positions. They are excited to get to work in the fall and make good use of our new Lodge. I can confidently say that the Lodge will not only make general operations in the Fraternity run smoother, it will also help strengthen an already growing sense of Brotherhood among the gentlemen of Alpha Epsilon Tau.

A few Epsilon Taus gathered around a campfire during a recent camping trip.

In order to get a better sense of our Brotherhood, I asked some of our newest members what compelled them to join Chi Psi. Here’s what they had to say:

For me, it was just how big of an emphasis there was on Brotherhood. Everybody at the rush events I went to was very connected, and it was clear that everyone cared for one another and there was a genuine friendship among all of the members.
-Nathan McKinley, ’27

For me, it was because Chi Psi emphasized what it was like to have a second home. Being from the East Coast and being so far away from home definitely wasn’t easy. Chi Psi was a place where there wasn’t any social pressure to be someone I wasn’t.
-Justin Koeneke, ’27

To be completely honest, I didn’t have many friends, if any, coming into college. David encouraged me to come check it out and what really stuck out to me was the variety of awesome people that I saw and how tight they were with each other, and I really wanted to be a part of that.
-Brendan Maguire, ’27

Campus Involvement

By Joe Bulanda, ’26

Being the new group on campus has been a humbling experience for all aspects of the Fraternity. However, the most challenging areas have been external relations and recruitment. As our External VP, I have made creating and cultivating relationships with other Greek organizations, like sororities, my top priority. My goal is to spread our name by being actively involved on campus, and this past semester, we made significant strides in the right direction. We held another successful philanthropy event, met with executive members of sororities, and also participated in intramural teams with sororities. As mentioned previously, we are moving into a Lodge next year. This will further enhance our external growth, as the location of our Lodge is in the middle of the Acres, Purdue’s Greek row. Being surrounded by other fraternities and sororities will give us new and unique opportunities to make friends and become more deeply involved with the Greek culture on campus.

Lodge Opening Ceremony - September 14th

By Vihaan Chadha, ’27

Brothers of Chi Psi:

Your fellow Brothers of Alpha Epsilon Tau are excited to invite you to our Lodge Opening Ceremony, celebrating the securing of our new Lodge. The last two years have been an incredible journey, from receiving our charter during the 182nd Annual Convention to successfully initiating our first pledge class. Now, we are just a few months away from moving into our very own Lodge. It would mean the world to us to celebrate this significant milestone with all of you.

The new Chi Psi Lodge at Purdue University.

We have planned a weekend of fun, starting with a Friday night cocktail hour, followed by a Saturday morning toast to the new Lodge (including hearing some words from Brothers who helped guide us here), a classic Chi Psi tailgate, and a huge home football game against Notre Dame. This will be a weekend to remember for our young Alpha, and we hope to see you there.

YITB!

Join us for our upcoming events!

Contact secretary.purduechipsi@gmail.com with questions.

Friday, September 13, 2024: Cocktail Event
Saturday, September 14, 2024: Lodge Opening Ceremony
