If you'd like to be included in the Zete Business Directory, scan this QR code.

Zeta Psi maintains a free business directory online for its members. Thank you to all of the Brothers that have supported Zete-owned businesses over the years. If we are missing someone, please refer them to the QR code above and let's get them added.

Staff *Report*

Brothers,

Zeta Psi is not just a four-year college experience.

Since 1909, Zeta Psi has produced *The Circle of Zeta Psi* in accordance with the vision of William A. Comstock: to strengthen the bonds of our international brotherhood. *The Circle* was created as part of a plan to help communicate and connect with brothers from all over the world – a plan that we are still utilizing today. Our international organization has over 50 chapters in six countries and seven time zones.

As you've been all too aware, the COVID pandemic has not been an easy time for our association, students and elders to navigate. Colleges and universities shut down operations and uncertainty about academic futures, restrictions on activities and Greek organizations continues to endanger our future. This is in addition to what all of you have personally gone through. It has been a difficult time but together, we can and will get through this.

To combat the challenges, the International Fraternity and Educational Foundation have put forth a strategic plan which was introduced at our 175th Anniversary in New York. I encourage you to read Will Woldenberg's Circle article to learn about our expansion, programming, mentorship and the future needs of every aspect of Zeta Psi Fraternity, Inc.

Help will also need to be more localized. Zeta Psi needs to incorporate the wisdom and strength of our elders to lead the organization. Our active chapters are struggling organizationally and financially and I'm calling on everyone who is capable to get engaged once again. Whether you just graduated or whether you've been out of college for over 50 years, we need your time and talent.

CALL TO ACTION

We're looking for you to get engaged across all levels of the organization via the following:

- Your chapter's Elder Association: modern technology makes it easier to communicate and offer help from around the globe.
- Your local area: Did you move to a new location far away from your chapter? Can you get involved locally? Zeta Psi has chapters in six countries and virtually every major city has fraternal operations. HQ is happy to connect local chapters and elders.
- International strategic plan: See if there is a region that fits your area of interest. Can you help expand the organization to 75 chapters by recommending someone to help charter a chapter?

Our alumni associations are often run by less than five key individuals who take care of all major operations: advising the students, mentorship, professional networking, house management, financial oversight, fundraising, filing taxes and more. To help, I believe our brothers can provide more support for our active chapters, alumni associations and the International Fraternity and begin to establish a positive, thriving vision for the next ten, 25 or even 50 years. Our strength lies together.

Zeta Psi has a section of our website dedicated to getting becoming involved (zetapsi.org/alumni/get-involved/). Please take the time to help our beloved brethren and offer the same opportunities to the next generation of college students. We'll utilize this section to help provide names to alumni associations and to our International Fraternity leaders. Thank you in advance for everything you already do, and I appreciate you getting more engaged.

Let's prove that Zeta Psi truly is a lifelong brotherhood.

Yours in Tau Kappa Phi,

Tyler Boisvert, Nu Sigma, Seton Hall '10
Executive Director
Zeta Psi Fraternity, Inc

Letter *from the* Phi Alpha

Dear Brothers,

It is my sincere pleasure to provide you with my first report on the state of Zeta Psi since becoming your 139th Phi Alpha at our 175th Convention in New York City.

We continue to have a shared focus on the **value of life-long membership in Zeta Psi**. This has informed the actions of "Our Circle: A Strategic Plan for Zeta Psi" and it is the critical guidance we have provided to our staff so that they can perform their responsibilities appropriately. Let's review the progress we have made for the items proposed in "Our Circle," which I spoke of in August at our Convention.

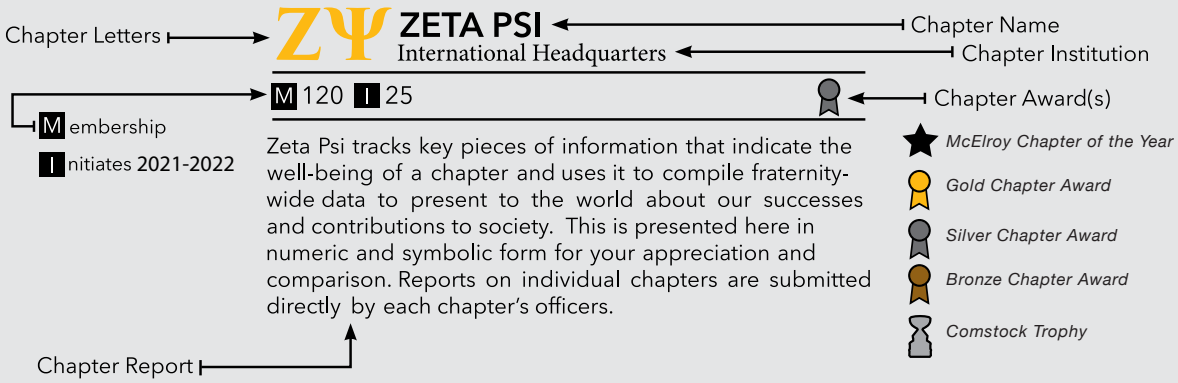

- We are continuing to expand through our "**75 From 175**" concept, which seeks to have 75 active chapters by 2028. We currently have 21 potential groups identified, including a rechartering of the Sigma Phi chapter at the University Illinois-Chicago and the chartering of the Kappa Alpha chapter at the American College of Greece. Banquets are scheduled for these chapters on April 1 in Chicago and on May 20 in Athens. We also have current "colonies" at the University of Alabama, Grand Valley State University, Grenoble (France) and the Universities of Ottawa & Carleton. We intend to restart the Theta chapter (UConn) in 2023 and recently received approval to expand at the University of Delaware in 2024 as well as a soft approval from UC-Boulder (Delta Alpha). West Virginia University is interested in bringing Zeta Psi to campus in 2025. We are also targeting restarts at Alpha Beta (Minnesota), Delta Chi (American), Sigma Zeta (UCLA), Pi Sigma (Penn State), Nu Sigma (Seton Hall), Sigma Gamma (NC State), Xi (Michigan) and Nu (Case Western). Finally, we have engaged with or have existing leads at EPFL (Switzerland), Imperial (London), the University of Kentucky, Texas A&M (Tau Alpha), Temple University and Queen Mary University (London, UK). This growth is largely due to the efforts of our staff (especially Brother Ben Libon) and the support of our Chapter Development Committee.
- Our Insurance and Litigation Committee, along with our Executive Director, made a difficult but necessary recommendation to end our insurance relationship with FRMT due to a more competitive and valuable product offered by Holmes Murphy. This is expected to lower the insurance cost for each Zeta Psi member.
- The Ritual Committee is hard at work redesigning The Torch of Zeta Psi and is completing the Blue Book update for members of the Fraternity.
- Our Alpha Sigma Alpha has developed a sustainable model that will strategically communicate critical information about Zeta Psi. This will allow us to "Tell Our Story" regarding the value of Zeta Psi brotherhood.
- We have enhanced our board members' experience by restructuring a number of committees and adding new ones. In addition, we have created job descriptions for our Grand Chapter officers. The addition of the Sigma Rho Alpha and Alpha Sigma Alpha as both elected and voting members has increased the importance of the Ritual and Communications Committees for our Grand Chapter and undergraduate chapters. We have also created a knowledge management depository for our Boards that will serve us well now and in the future.

And we're just getting started – over the next six months, we're going to further increase the inherent value in being a Zeta Psi member. We will revise our ideal chapter criteria, adjust our governing constitution and by-laws so that they better reflect how Zeta Psi will operate in the future, and – perhaps most critically – we will establish an Elder-At-Large Alumni Association.

We all owe a debt of gratitude to our wonderful staff members, especially to the tireless efforts of our Executive Director Tyler Boisvert. It is an honor to continue to serve you as your Phi Alpha and I hope to see or meet you at our 176th Annual Convention in Seattle, WA!

Will Woldenberg, Beta Tau, Tulane '07
Phi Alpha

Chapter Updates

Each chapter's update reflects information collected throughout the 2021-2022 school year. Chapter awards reflect those presented at our 2022 Convention in Brooklyn, NY.

ALPHA EPSILON CHAPTER
University of Illinois

M 32 I 4

I'm happy to say we accomplished a lot this year! We initiated 11 brothers, had several new social and brotherhood events that surpassed expectations, made house renovations and so much more. To top off a great year, we hosted a campus blood drive! Looking ahead, the Alpha Epsilon chapter is looking to continue our good year by continuously improving our recruitment techniques as well as expanding our social and philanthropic campus outreach. Alpha Epsilon continues to be involved in a variety of community events. We hope to continue to increase our presence at local charity events. We continue to strive to make our chapter a safe and welcoming place to all potential members and fraternity guests. We would like to give a special "thank you" to our previous Executive Board – Zane Inman, Ben Szkola and Brahmteg Minhas – for their hard work and dedication to our chapter over the past year, as well as elders Joe Fahnstock and Justin Dembowski for continuing to provide essential help and support to our current officers and brothers.

ALPHA PSI CHAPTER
McGill University

M 44 I 14

The brothers of Alpha Psi crushed it this past year. We recruited and initiated classes of ten and 14 brothers. We just hosted our commemoration dinner where we welcomed to Montreal our elder chapter and brothers from other chapters. We honoured our brothers who lost their lives defending our freedom. We also laid a wreath on behalf of the chapter on the War Memorial during the November 11th Remembrance Day ceremony. Last week, we closed our Movember fundraiser where we raised over $21,000 to support men's mental and physical health. Earlier in the semester, we also raised over $1,500 for the Terry Fox Foundation. We just elected our officer class for the ensuing term. These brothers are driven and motivated to grow our chapter and continue our tenure as campus leaders in 2023.

BETA CHAPTER
University of Virginia

M 70 I N/A

After a difficult spring semester, the Beta chapter feels that it has bounced back very well. We have had many brothers elected to the University Judiciary Committee, the IFC and the Honor Council, among others. We have continued to participate in philanthropic efforts that support men's mental health and have supported the local food bank in Charlottesville. This spring, we would like to continue to urge our members to be leaders – not only in the fraternity, but in the university community as well. This spring, we are excited to start hosting new events in support of other local philanthropic organizations. We would like to thank the many members that have stepped up as university leaders and welcome in our new officers, whom we are confident will continue to better our chapter.

ALPHA MU CHAPTER
Dalhousie

M I

Chapter update not available at press time.

ALPHA THETA CHAPTER
University of Waterloo & Wilfrid Laurier University

M 32 I 7

This past year, our brothers banded together and fully recovered from what has been a difficult couple of years. We worked together to rebuild a fraternity that we can all be proud of. We have engaged in trips and events that have reminded us of the true meaning of brotherhood. We have also expanded our relationships to include brothers from other chapters. We raised $2,500 for Movember ($500 over our goal) and were able to plan a wonderful food donation event at one of the local restaurants. This allowed us to provide 113 meals for the less fortunate. Our recruitment process is constantly being improved. This is helping us regularly bring in and initiate incredible young gentlemen every semester, which will continue to pave the way for our chapter. All of this is made possible by an incredible Executive Board that works endlessly to make sure we continue to succeed as a fraternity.

BETA DELTA CHAPTER
University of Arizona

M 90 I 22

Our goal for the spring semester and 2023 is to build our brotherhood and make it better than ever, to raise the house GPA, to make our community a better place, and to have more members in the fraternity.

BT BETA TAU CHAPTER
Tulane University

M 45 I N/A

Compared to 2022, this semester has been very rewarding. To start off the year we created a LinkedIn page for Beta Tau alumni. As a result, we had great success in building a network for future generations. Beta Tau also hosted multiple events during Alumni Weekend to further our relationship with our elders and were granted money for house renovations. We had four philanthropic events – three with sororities on campus to help our on campus presence and one that was run solely by Beta Tau. Adam Hadim, former treasurer and incoming Phi, was our most outstanding brother. He significantly helped with the overall chapter operations. Brother Hadim was great about managing our finances considering such a large percent of our active members were abroad. Adam will meet with our chapter consultant (Cade) this week to discuss his goals for the 2023 spring semester. I would also like to give Cade praise for being so great in my last semester as Phi!

ΓΕ GAMMA EPSILON CHAPTER
Georgetown University

M I

Chapter update not available at press time.

IA IOTA ALPHA CHAPTER
University of Texas

M 24 I 12

The Iota Alpha chapter welcomed in 12 new Zetes in the fall. This was our largest initiated class in five years, which increased the chapter size by fifty percent. Numerous brothers received leadership positions throughout the university. One brother is now IFC Executive Vice President and three brothers hold key leadership positions in the ROTC department. The chapter hopes to recruit another new member class of ten or more and expand and improve the chapter's philanthropic efforts this coming spring. Lastly, Connor McGlinchey, Decorian Menefee, Austin Livingston, and Josh Rude need to be thanked for contributing to the chapter's improvement.

IN IOTA NU CHAPTER
University of Nevada

M 40 I 9

This year our chapter moved into a new facility on West St. where we've enjoyed many newfound memories. Our brothers have been making strides in the community by involving themselves in student government, civil service and the interfraternity council. We welcomed nine new brothers into our chapter. The Iota Nu Chapter is most proud of its support of the Max Vincze Foundation. Together in conjunction with the Reno Independent Interfraternity Council, we were able to raise over $7,000 towards adolescent and young adult cancer with a foundation in the name of one of our brothers, who passed away from his fight with NUT carcinoma. In 2023, we plan on growing our chapter with active recruitment as well as continuing our engagement with local partners and the University community. We'd like to thank the contributions of our 2022 Executive Board under the leadership of Brother John Kermanshahi and a special thanks to Brother Duke Schreiber for his continued work on our chapter's finances.

KΔ KAPPA DELTA CHAPTER
George Mason University

M 19 I 9

We would like to thank Jim Hiller, who has been our elder advisor for the past year. He has been an amazing addition to our chapter. He brings a completely unique outlook into our operations and has provided his wisdom for the situations we have experienced. He also has attended many of our chapter meetings and we truly appreciate it.

XΓ CHI GAMMA CHAPTER
University of Calgary

M 9 I 3

This past fall semester, the Chi Gamma chapter has seen a healthy rush as Covid 19 restrictions have being fully lifted. As a result, we were able to recruit worthy men that we are happy to call brothers. As we go into the spring semester, we aim to continue our efforts to grow and revitalize our chapter.

ΓΨ GAMMA PSI CHAPTER
University of Guelph

M 8 I 2

We're pleased to report that the Guelph chapter is back up and running! Even though the chapter consists almost entirely of new brothers, we are quickly learning the ropes and bringing in more great people. We hope to find a house closer to campus this year so that we can improve our rushing efforts. We'd like to thank our former Phi, Phillip Kennedy, for all of his hard work and dedication. This ensured that our chapter survived after only having two actives brothers.

IΔ IOTA DELTA CHAPTER
University of Califonia, Davis

M 23 I N/A

This entire quarter was semi-ruined with an allegation made against one of our brothers. Social events, community service and philanthropic events were all close to not happening. Our goal is to jump start these areas. This will allow us to start from a blank slate and bring new light to the fraternity by giving the campus community something great to recognize us by. We'd like to give a shout out to our Gamma, who redefined his position and what it means to be treasurer. The transition to future Gammas will be much more fluid and efficient.

KA KAPPA ALPHA CHAPTER
American College of Greece

M 6 I 4

This year our group has managed to gain colony status and we set on getting chartered this May. We initiated two classes of brothers, which brings our total to 11 active brothers. We are currently preparing for the Gamma class, which will be the biggest out of the three. Our goals this upcoming year consist of taking part in and/or organizing a few charity events, initiating two more classes and creating new traditions with our European brothers. We would like to thank each and every one of my brothers in the Athenian chapter for taking part in this challenging initiative and staying present at all times. We would also like to thank every single IHQ member for being here for us and for trusting us. We had the chance to work closely with Olu Arisekola, who is a person we can always go to when something comes up. We also got to work with Tyler and Lauck, who despite all the obligations and the limited time they have,still managed to stay close in their own way even if they are thousands of miles away. Thank you for the chance you have given us. TKPHI.

KΦ KAPPA PHI CHAPTER
Cooper Union

M I

Chapter update not available at press time.

MU THETA CHAPTER
University of Alberta

M 6 I 4

We're doing our best.

NU DELTA CHAPTER
Marist College

M I

Chapter update not available at press time.

OMEGA ALPHA CHAPTER
University of Chicago

M 14 I N/A

The Omega Alpha chapter achieved a lot despite our current financial situation. We raised money for the Chicago Women's Fund which provides shelter and aid to women suffering in the Chicago area. We had a cleaning of the house, which was sponsored by an elder. This brought the house back to its original state. We managed to recruit a class of nine, which is over double our current size. Our goal is to be financially stable. We will hopefully do this by securing leases for people to live in the house during the summer and the following academic year. We are also hoping to raise money for major architectural changes to the house. We also want to begin increasing our number of philanthropic even ts as we will have a larger number of brothers to help plan and organize them. Brother Satvik Jain,after serving as vice president and helping so much during a difficult year, decided to continue and serve as president to try and help the Omega Alpha chapter survive.

OMICRON CHAPTER
Nebraska Wesleyan University

M 23 I 8

We started the new academic year with a few major goals. These consisted of increasing our cumulative GPA, recruiting a quality fall class, hosting more philanthropic, service and social events within our community. We have worked hard as a chapter to focus on performing well inside and outside of the classroom. We have continually strived to improve our house GPA every semester and were second among fraternities with a 3.46. The year started with a great recruitment week in August with three events: Car Smash, Zeta Psi Tailgate (yard games/Chick-Fil-A) and Steaks-n-Shakes. We ended with eight new members, which is good considering how small our campus is. Additionally, we hosted two philanthropic events and two additional events with other Greek houses. Our first was America Dance, which is an American-themed dance held in our basement. Proceeds went to the Wounded Warrior Project. Our second was Rock-a-Thon with our neighboring sorority. Members from both chapters would sit in a rocking chair in time slots for 24 hours. All money raised from the event was donated to the Make-A-Wish Foundation. We then co-hosted a Fright Night philanthropy dance with another fraternity and the proceeds went to Red Cross/Hurricane Ian Relief. Our last event was called Crepes with Zetes. We served crepes and coffee and donated the proceeds to Salvation Army Holiday Food Drive. We are pleased to say that we been very active within our campus community by participating in many events. Events include but are not limited to: Title IX Training, Anti-Hazing Training, Domestic Abuse Run, Suicide Prevention Walk and Trunk or Treat for the YMCA. The Omicron Chapter is also blessed with a strong Elder Board that has provided our members in with a renovated foyer and bathrooms, better internet, and a new parking lot, We have also planned a kitchen renovation for the summer of 2023. We are on track to reach the goals we have set for ourselves and can't wait to continue on this path.

OMICRON EPSILON CHAPTER
Princeton University

M 26 I 16

Chapter update not available at press time.

PHI EPSILON CHAPTER
University of Maryland

M 81 I 4

This past year our chapter welcomed 34 new members, including 30 in the Spring of 2022. This is our largest new member class to date. We also hosted two philanthropic events, ZetaPies and Zetacos which sold pizza and tacos respectively to raise money for OneLove. For Spring 2023, we are hoping to continue our momentum and recruit another large pledge class. We would like to thank Stuart Bowers, Dom Lopiccolo, and Michael Freiman for their help making homecoming this year a success as well as giving us the opportunity to connect more with our wonderful elders.

PI CHAPTER
Rensselaer Polytechnic Institute

M 20 I 1

The Pi Chapter of Zeta Psi at Rensselaer Polytechnic Institute has accomplished a lot this past year and we have grown as students and as a brotherhood. Our chapter was able to participate in multiple philanthropic events, including raising money for St Baldrick's Foundation, volunteering at a local homeless shelter and working with the IFC to clean up trash on the streets of Troy, NY. We also want to highlight all of the student athletes in our chapter from golf, basketball, baseball and lacrosse. Our basketball team is currently ranked #19 nationally, our golf team is #24 and our lacrosse team is #18. We are proud to have these guys representing our chapter. We are also welcoming a new President to our school this year, President Marty Schmidt ('81), and we are excited for his plans for our school and Greek life.

PHI LAMBDA CHAPTER
University of Washington

M 48 I 23

Phi Lambda has experienced an extremely successful year thus far, winning the Gregory E. McElroy Chapter of the Year award at the 2022 convention in Brooklyn! This fall, we initiated 23 new members. The recent addition of the Phi Lambda Mentorship Program has brought us great success in both participation and outreach. Spearheaded by elder BJ McMahon and actives Calvin Jensen, Ryan Carroll and Ryan Thomson, we hosted a Career Day. Our elders joined us at the chapter house to discuss career paths and give advice to active brothers and new members alike. With over 15 elders and 45 actives in attendance, Career Day was a great launching point for more engagement from both the actives and the elders. It helped us further our relationship and presented an opportunity for elder brothers to give back to Phi Lambda. In philanthropy, our partnership with the B+ Foundation has helped us raise $1,270 and the amount is still growing. The B+ Foundation helps to fund childhood cancer research, and we are happy to be contributing to their efforts this fall. Phi Lambda also participated in and donated to Movember, with actives growing facial hair in support of men's mental health. In the upcoming Spring Quarter, Phi Lambda is planning on initiating a Spring Pledge Class and running the Zetor Games Philanthropy. Hold High the Torch!

PI KAPPA CHAPTER
Bloomsburg University of Pennsylvania

M 29 I 6

Our chapter was focused on recruitment and elder engagement this semester. We were able to reach out to our old Zeta Psi alumni for our annual clambake. We also were focused on recruitment this semester as well and we initiated six new Zetes. We hoped for a little more, but it has been hard being disaffiliated from the school. Next semester we hope to focus on a bigger outreach to students, hosting more philanthropic events and getting involved in some community service events.

ΨI PSI CHAPTER
Cornell University

M 30 I 6

The chapter is in great spirits and eager to make itself more well known on campus. We initiated six brothers this fall semester despite there being less than 250 people signed up for official rush. This brought our house total to 36... a healthy number that will continue to grow. The new class has integrated extremely fast and many of them went on a Comstocking trip to the Theta Eta Chapter in Ontario. With everything being open, the brothers are able to fully experience fraternity life from attending in-person National Conventions to volunteering at various organizations on campus. We've tried to push the new class to participate and take advantage of as many Zete and Cornell opportunities as possible.

Socially, the brothers have created an environment that attracts positive attention to the house, despite the challenges Greek life currently faces at Cornell. We had wonderful social events this semester which reflect the presence we brought to campus prior to Cornell's prohibition of social events. Some of our favorites include go-karting, pumpkin carving, Zete Island and going to a trampoline park. Having successful events is due to active brother participation and their excellentwork in bringing in participants. Whether it be as a teaching assistant, acapella singer or athlete, Zetes are active Cornellians. Additionally, the brotherhood has had distinguished guests such as Vice President of Student and Campus Life Ryan Lombardi and Associate Vice President for Communication Monica Yant Kinney visit the house. This would not have been possible without the brothers' dedication to the image of the house.

The brothers are doing a lot to ensure the spring semester goes even better than the fall. We've been remodeling the basement by adding a neon sign, more wall art, and mounted speakers which attract more attention to our events. We also have been working on relationships with Cornell organizations such as the Latino Living Center, OneLove and various sororities. This is in preparation to recruit a large class of people next semester who we believe share the same values and dedication as us. We hope to continue to grow and show what it means to be Cornell's First and Foremost Fraternity.

ΨE PSI EPSILON CHAPTER
Dartmouth College

M 50 I 26

We just finished a very successful fall rush in which we initiated 26 new members. Our house is in great shape as we do lots of service and host great brotherhood events. Our goals for the spring term are to continue to solidify our close bonds with our new class and participate in many more service and brotherhood opportunities.

ΨO PSI OMICRON CHAPTER
University of Paris (France)

M 10 I N/A

The chapter is enriched with new members, our structure becomes more developed thanks to chairs, the office of the eiders which has just been constituted and we have the will to create an organization which gathers all the French brothers so that we can coordinate and organize events on the territory with the chapters which are or will be opened.

In addition, we are working on entrepreneurial projects to meet the financing needs. We are excited about the future and we are confident.

ΠA RHO ALPHA CHAPTER
Massachusettes Institute of Technology

M 36 I 16

Chapter update not available at press time.

ΣB SIGMA BETA CHAPTER
University of Califonia, Santa Barbara

M 78 I 12

Although recruitment numbers were smaller than they have been in recent years, we are proud to say we initiated 11 outstanding gentlemen. We take pride in quality over quantity. Our newly elected Executive Board is looking forward to improving our philanthropic ventures. These include a fundraising event for a Ugandan rugby club, which is sponsored by our 2020 Executive Board. We will also be putting a lot of focus into our alumni outreach efforts in the coming months. Onwards and upwards, in TKPhi!

ΣE SIGMA EPSILON CHAPTER
University of British Columbia

M 2 I N/A

We are currently trying to recruit enough members so that we can have a healthy brotherhood. We have lost many brothers for a variety of reasons and we no longer have a house due to our financial position and issues with our landlord. That being said, we have not lost hope and will continue trying to keep our chapter alive.

T TAU CHAPTER
Lafayette College

M 22 I 4

This past year, the Tau chapter has continued to thrive on campus and in the Easton community. We have continued to have a positive impact on the Easton community through volunteering at local gardens and farms, which provide food for Lafayette's campus as well as for local shelters. On campus, we have tried to host several events for elders to attend and share their experiences. We hosted cocktail parties for Homecoming Weekend as well as the annual Lafayette-Lehigh football game. There was exceptional participation from our 2010 class. At the end of the fall semester, the Tau chapter held elections and saw Anthony DePersio take Ethan Riehl's place as Phi. Best of luck to Tony in his new role, and we are looking forward to the Tau's continued success at Lafayette.

TAU GAMMA CHAPTER
Purdue University

M 6 I N/A

Chapter update not available at press time.

THETA ETA CHAPTER
Brock University

M 24 I 4

This year the Theta Eta chapter has been very successful. It has been our pleasure to welcome ten new brothers this year. One of the most memorable achievements of the Theta Eta chapter was packing over 1,500 lunches through Community Care Niagara for less fortunate elementary school children in the region. Another notable achievement of the Theta Eta chapter was eliminating over $2,000 of debt held by the chapter and creating a surplus fund for future chapter activities. We would like to extend a special "thank you" to our outgoing and soon-to-be elder Alpha Phi and Gamma, Brother Doherty and Brother Kazimowicz and the rest of our executive board: Brothers Basic, Morabito and Dziarkach for their outstanding efforts in ensuring the success of the Theta Eta chapter and our achievement of a Silver Chapter award.

THETA OMICRON CHAPTER
Trinity College, Dublin

M 30 I 12

The Theta Omicron chapter was delighted to welcome an impressive class of 14 new members this past fall. We look forward to seeing what they will achieve in years to come and the direction in which they will take the Theta Omicron chapter. In the coming semester, the chapter will strive to increase both the quantity and quality of its charitable and philanthropic endeavours and ensuring the new class of brothers is fully immersed and aware of the culture and values of Zeta Psi. Theta Omicron's outstanding achievement for 2022 was our ten year anniversary, which took place in March. I would like to personally extend my deepest appreciation to each and every Zete who participated in the celebration -- above all, the contribution of the previous Executive Committee and my predecessor as Phi, Alex Agrios. The efforts made by our international brothers to attend the anniversary in Dublin were greatly appreciated by all of the Irish brothers. We are all looking forward to the Lions weekend in March of 2023, which will take place in Paris for the first time. I would like to thank the brothers of the Psi Omicron chapter for organizing the weekend and embracing the tradition of the Lions with such open arms. It is an awful shame that they won't be claiming the Brother Matt Smith Memorial Cup. #ItsComingHome

THETA PSI CHAPTER
Queen's University

M 15 I 5

Theta Psi has been working very hard this year to continue to grow our chapter at Queen's University. The current roster of actives has built some incredible relationships with each other, our new members and the surrounding communities. We have been on a variety of Comstocking trips to both the United States and Canada. Our current Phi even flew to Alpha Mu to attend their Fall Class's initiation and semi-formal dinner. Theta Psi has a lot planned for 2023 and beyond, including hosting our upcoming Ten Year Banquet dinner in April. This will bond the elder base with the current actives as well as showcase the history of the chapter and Zeta Psi as a whole. We're looking forward to everything the future has to offer and to connecting with everyone at future LTIs, Conventions and other events.

UPSILON CHAPTER
University of North Carolina

M 46 I 10

It was another successful semester for the 56 brothers of the Upsilon chapter of Zeta Psi at UNC-Chapel Hill! Amongst other things, we were proud to welcome and initiate ten new brothers this fall. We also raised over $14,000 for Carolina For The Kids through a philanthropic concert and orchestrated an exciting and highly-attended alumni dinner at the Milburnie Fish Club in Raleigh, NC. We look forward to growing the chapter in the spring semester with newly elected officers Rhett Soule (Phi), Sam Karpel (Alpha Phi), Bennett Brosnan (Gamma) and Hugh Vogt (Sigma) at the helm! A special thanks to the outgoing executive team: Mason Atwell, Ryder Seiz, Langdon Boliek and Cole Aganad.

TAU THETA CHAPTER
University of Ontario Institute of Technology

M 19 I 5

2022 has been an amazing year for the Tau Theta Chapter. We are extremely proud of our many accomplisments. This year we moved our chapter house and had a fresh start. We initiated ten new brothers. All have goals of becoming officers in the future so that they can help push Tau Theta to even greater heights. We engaged in many philanthropic events and raised almost $1,500 for Movember... our greatest amount yet. We aim to have an active brother roster of 30 in the next year. The new officer council has many plans that are going to help improve Tau Theta in ways we've never seen before. We would love to give a massive shout out to our 2022 active and elder officer council for putting in countless hours. We are now the best Greek organization on campus. Our chapter has been the closest and strongest it has been in years as we continue to improve and strengthen the Tau Theta name. Thank you to all the elders who have been actively engaged with the active chapter. You have all helped us know what it means to truly be a Zete. Finally best of luck to the new officers and brothers in the upcoming year. We believe in you and know you can bring Tau Theta to its best position ever. Best of luck! Your 2022 President and Officer Council.

THETA PHI CHAPTER
Western University

M 36 I 13

This year for the Theta Phi Zetes has been a huge one. We built a trophy cabinet for all of our awards, brought in a class 13 new members, and had a wonderful elder event in November. Over 15 of our elders attended. We also held our annual Rocktober philanthropic event where we raised $3,500 for OneLove. Our goals for the spring are to continue our success on campus and hopefully win another Comstock trophy!

THETA XI CHAPTER
University of Toronto

M 27 I 9

Information not available at press time.

ZETA TAU CHAPTER
Michigan State University

M 28 I 6

We participated in SAFE Halloween (an event hosted by the University for local children who are unable to participate in Halloween) and assisted incoming freshman as they moved in. We will be moving to 334 Michigan Ave in East Lansing in the Fall of 2023. We also plan on hosting a Culver's fundraiser for OneLove and working with Raising Cane's to host a fundraiser for the same charity. We won the Silver Escutcheon Award, the Silver Chapter Award, and was Top U.S Chapter for the 1847 Challenge

The chapter's goals for the 2023 school year are to look towards continously expanding and growing as a fraternity while creating quality men ready to continue the legacy of Zeta Psi. The Zeta Tau chapter will be going into its eighth year of operation in 2023 and plans to continue its operations for the forseeable future while striving to create men who are the best versions of themselves.

We want to thank Brother Adam Diri for his continued compassion towards not only the active and elder chapter, but towards IHQ. Brother Diri is working s to create the chapter's first educational foundation fund as well as keeping the Torch held high.

We would also like to thank Brother Connor Lieberman for assisting in revamping our public relations via social media. He is also stepping into the position of Public Relationships Chair for the 2023 school year. Good on ya, Connor!

GROUP OF INTEREST IN LYON

Our group is composed of six people: two people studying for the same BS in Lyon, two at the University of Grenoble and two studying in Grenoble's business school. We had some activities in Grenoble (work sessions, sport sessions and the like) but never with all of the guys together. We have now legally created the association, too. We would like to have 15 people by the end of the spring semester.

2022 Chapter Awards

The following chapters have won these awards. They were presented at the 175th Annual Convention in Brooklyn, NY.

McElroy Chapter of the Year

Phi Lambda (University of Washington)

EARL JOHNSON, JR.

Earl Johnson, Jr. (Upsilon/North Carolina ‘54) passed away in March 2023. Earl was the cornerstone of the Zeta Psi Club of North Carolina for decades. He served as Trustee of the Zeta Psi Educational Foundation. Earl and his family have touched the lives of UNC Zetes and the greater Zeta Psi community for 70 years. When the chips were down, Earl was always the person that could be counted on to calmly assess the situation, chart the path ahead and rally people to his side to move forward together.

BILL BUCK, TAU '50 – A LIFE WELL-LIVED IN TAU KAPPA PHI

A Tribute by Greg McElroy, Phi Alpha #131

It's always hard to say goodbye to a friend or a family member, but it can be especially difficult when the person who has left you was one with whom you just shared a pleasant experience a short time ago. I am sad to announce to the Zeta Psi world that our Fraternity's most prolific benefactor over the past four-plus decades, William C. "Bill" Buck, Tau '50, passed away on Wednesday, March 29th, at his Florida winter home with his wife of 68 years, Laura, and his daughters at his bedside. Though it is not surprising that a man of nearly 95 years would pass away, it came as a surprise to me because I was privileged to enjoy a pleasant lunch with him and another extraordinarily generous Zete who lives in the same community, Dick Brickman, Alpha Epsilon '54, on March 13th. Bill had battled some challenging health issues earlier in his life—including surviving cancer in his late 40s or early 50s and more recently, he was being treated for some other issues, but he appeared to be in good health and in his usual good spirits when the three of us got together for our lunch gathering.

So how did my friendship evolve with a man 20 years my senior? Quite simply, he was a great Zete who wished to be involved and I was a conduit for that involvement. We clicked because we both had a vison of building the endowment of Zeta Psi Educational Foundation. I distinctly recall the time that he and I visited the office of Howard Butcher III, Sigma '23, CEO of Butcher & Singer in his Center City Philadelphia Office and we pitched him for funding a scholarship fund, which Brother Butcher agreed to do. During our car trips around the northeast, I got to know Bill personally and discovered how he and his two brothers—his older brother Jim and his younger brother Whip (Tau '54)—decided to purchase a share of the Philadelphia Phillies franchise in the 1980s. Starting in about 1985, Bill agreed to host about two dozen Zetes in his owner's box for one game each year. I gladly coordinated that annual event on his behalf and it was a highlight during my years as Zeta Psi's Executive Director and for a long time after I left that position. Unfortunately, the COVID pandemic ended that tradition, but it will always be remembered warmly by the dozens of those who had attended those annual events (several of whom attended all or most of those Phillies Nights).

As a fundraising professional, I have met and interacted with hundreds of people of wealth. I'd have to say that Bill was one of them – as he had an extraordinary record of philanthropy – but he was never the least bit arrogant or showy and was eager to meet and greet every person who wanted to approach him at any social gathering. And of course, he loved his Phillies and they gave him the ultimate euphoria in 2008 when they won the World Series. He told me after they unexpectedly made the World Series last fall how fulfilling that was to him after the pandemic and the years in which his team didn't do so well. So his last year of life was one of good times and I can say this without resorting to the common cliché: Bill Buck's was truly a Life Well Lived and also one that we as Zetes can call one in Tau Kappa Phi. May he rest in peace!

Zeta Psi *Political Leaders* Past and Present

This is a partial list of the many Zetes who have served their countries

CURRENT

Bethlenvalvy, Hon. Peter
Achievements: Minister of Finance for the Province of Ontario (2021-present).
Chapter: Alpha Psi, 1982 (McGill University)

Menendez, Rob
Achievements: Congressman, U.S. House of Representatives, New Jersey's Eighth Congressional District.
Chapter: Upsilon, 2006 (University of North Carolina)

Padilla, Alejandro (Alex)
Achievements: United States Senator from California (2020-Present). California Secretary of State (2015-2020), California State Senator (2006-2014), Chair of the Committee on Energy, Utilities, and Communications.
Chapter: Rho Alpha, 1994 (Massachusetts Institute of Technology)

Aspin, Les
Achievements: United States Representative from 1971 to 1993 and United States Secretary of Defense from January 21, 1993 to February 3, 1994.
Chapter: Eta, 1960 (Yale University)

Bass, John R.
Achievements: American diplomat who served as the United States Ambassador to Georgia (2009–2012), Turkey (2014–2017), and Afghanistan (2017-2020).
Chapter: Gamma, 1986 (Syracuse University)

Bowles, Erskine
Achievements: 19th White House Chief of Staff (1997-1998) under President Clinton. 18th Administrator of the Small Business Administration (1993-1994). President, University of North Carolina System (2005-2010).
Chapter: Upsilon, 1967 (University of North Carolina)

Brown, Scott
Achievements: Former US Senator - Massachusetts, US Ambassador to New Zealand.
Chapter: Kappa, 1981 (Tufts University)

Bush, Prescott
Achievements: Former US Senator - Connecticut (1952-1963).
Chapter: Eta, 1917 (Yale University)

Dean, Dr. Howard
Achievements: 79th Governor of Vermont (August 13, 1991–January 8, 2003), Former Chairman, Democratic National Committee (February 12, 2005–January 21, 2009).
Chapter: Eta, 1971 (Yale University)

Pepper, George Wharton
Achievements: U.S. Senator from Pennsylvania from January 9, 1922–March 4, 1927. Honorary degree from Lafayette College, 1922. Namesake for the George Wharton Pepper Prize at Lafayette College, awarded annually to the senior "who most nearly represents the Lafayette ideal." A founding member of the Pennsylvania Bar Association. Nephew of past Phi Alpha (1892) Dr. William Pepper, Sigma, 1857.
Chapter: Sigma

Wachowich, Allan
Achievements: Former Chief Justice, Court of Queen's Bench of Alberta
Chapter: Mu Theta, 1958 (University of Alberta)

Wilson, Pete
Achievements: 36th Governor of California (1991-1999). US Senator - California (1983-1991). San Diego, CA Mayor (1971-1983)
Chapter: Eta, 1965 (Yale University)

Convention 2022:
Reflecting on the Brooklyn Convention

by Alex Pruce, Psi '13

It is hard to believe that our fraternity's 175th anniversary has come and gone. The 2021-2022 academic year was full of local, national and international events to celebrate our demisemiseptcentennial, but the capstone was Zeta Psi's Brooklyn Convention in August. Both Stephen M. Halperin, Beta Tau '84 and the author of this article, Alex Pruce, Psi, '13, were very honored to co-chair the convention, which was also the first in-person convention with full programming since the Baltimore Convention in 2019.

Due to the pandemic, Zetes from across the world had been anxiously waiting for a reunion after the three-year hiatus. Many brothers and their guests took the opportunity to explore Brooklyn and New York City at-large on their own. Going to Broadway shows, attending a Yankees game, boat cruising around the city, partaking in a pizza tour and getting lost in Times Square are just some of the wonderful stories experienced during the week.

As for official events, we kicked off the convention with a happy hour meet-and-greet in midtown Manhattan. Afterwards, Zetes attended a variety of programs and meetings at the host hotel, the New York Marriott at the Brooklyn Bridge. In the evenings, brothers and their guests traveled to Coney Island for a Brooklyn Cyclones baseball game with a picnic dinner. On the last night, they attended the annual Grand Chapter Banquet. It was great to spend time and catch up with brothers from all over the world.

This year was especially meaningful for our chapters. The Psi Chapter had one of its own brothers, Maurice Ducoing '03, elected as President of the Zeta Psi Educational Foundation, succeeding another Psi, Tom Roerden '83. Tom served as President for the last two years and spearheaded the creation of the Emergency Scholarship Fund, which helped numerous brothers in need. The Beta Tau Chapter of Tulane had a special convention as Will Woldenberg, '07, was elected to the Phi Alpha position of Zeta Psi. Aaron Ronksley, '07, was elected to the Secretary position of the Zeta Psi Educational Foundation.

Since this was the first in-person convention in three years, we were once again able to present awards to the specific honorees. Past Phi Alphas Andrew Nunez, Iota Alpha, '94 and Barth Gillan, Alpha Psi, '85, were honored with Distinguished Service Awards, Bill "Landru" McKnight, Theta Xi, '80, was honored with the James J. Carey Leadership Award and Christopher Arnold, Theta Eta, '11, received the Douglas P. Donaldson Young Alumni Award. Highlights of the chapter awards were the Phi Lambda chapter receiving the McElroy Chapter of the Year, the Gamma Epsilon chapter receiving the the William R. Duryee Award and the Theta Omicron chapter receiving the William A. Comstock Award. Theta Omicron became the first European chapter to claim this award.

Seattle will be the host city in July, 2023 as will New Orleans in July, 2024. The Convention Strategy Committee is actively reviewing and soliciting bids for host cities in the coming years, so if you have a proposal, please let Alex Pruce and the Committee know. We hope to see you in Seattle in July.

In Tau Kappa Phi,

Alex Pruce, Psi '13 & Stephen Halperin, Beta Tau '84

Jeff Wozer presenting the Saturday morning Keynote address

The traditional Gamma elders dinner with the international brothers at Dinosaur BBQ

The annual crazy shirt night at the Brooklyn Cyclones game

Gamma *Pizza Tour* 2022

by Ira Berkowitz, Gamma '82

Over 15 Gamma elders attended at least one event during the 2022 Brooklyn Convention, making our chapter one of the top three the largest elder attendee groups. As has become our tradition, we treated the active brothers from Europe to dinner at Dinosaur BBQ (the one in Brooklyn…not the original in Syracuse!), followed by a fun night of shuffleboard at the Royal Palms.

One of the many highlights for the Gamma elders was the pizza tour we took with Scott's Pizza Tours on Saturday afternoon. Although he is not a brother, Scott happens to be a Syracuse alum.

We visited three different pizzerias, each featuring their own style of pizza. Thanks to Krista, our tour leader, we learned about the different styles of pizza, the ingredients used – dough, cheese, sauce, herbs and spices, and the like - different cooking methods, the various types of pizza ovens and much more about the history of pizza in New York City. She also had a great deal of knowledge about Brooklyn and the neighborhoods that our journey took us through. Did you know that Cobble Hill in Brooklyn was the site of the first major battle after the signing of the Declaration of Independence and that the British leveled Fort Cobble Hill so that American troops could not overlook their headquarters in Brooklyn Heights?

As you can see, our pizza tour was not only yummy, it was also educational. The best part is, we burned off those pizza calories walking and talking our way through the neighborhoods of Brooklyn.

Ira Berkowitz getting ready to dig into a slice of Brooklyn's finest

Our tour guide getting ready to serve up another pie

Pizza…fresh out of the oven! Are those basil forward?

Randy Schein, editor-in-chief and pizza connoisseur

Dave Kasdan:
Removing the Stigma Around Mental Health

Please tell us a bit about your history in the mental health field.

After battling addiction in the late '90s and getting clean and sober, I went to grad school to get a Masters Degree in Counseling Psychology. At first, I began working in addiction counseling with adolescents, then with adults, veterans and homeless services. I held a variety of different positions both as a clinician and a Program Director. I also worked in the general mental health field, family services and in college counseling. I finished up my clinical career working in a middle school / high school system as a confidential counselor for students and families.

What is your position at Talkspace? How closely do you work with specific therapists? What do you do in your specific position and what are your overall responsibilities?

I am the Senior Vice President of Business Development at Talkspace. I joined it when the company was still a start up seven-and-a-half years ago. I was employee number 16. We are now the leading company in the online therapy space. We went public in 2021 and as one can imagine, have been extremely busy for the past several years.

I don't work on the clinical team and don't really have regular interactions with our network of therapists. However, I do interact with certain specialist therapists and leadership on the clinical team on a regular basis (including our chief medical officer and clinical directors) as I bring them in to join me on presentations and pitches to prospective clients.

My role is to work with large corporations, organizations, colleges, nonprofits and more to develop partnerships in which they bring us in as a benefit for their employees, students, members, etc.

I quarterback and lead the presentations and pitches and focus on sharing the various capabilities of Talkspace services. I also conduct online demonstrations of how the services work and the outcomes and other benefits of partnering with us. I'm involved in every aspect of the sale from prospecting through presenting through contracting. Once they have signed with us, I hand off the partnership relationship to our account team. I still maintain long-term relationships as an executive sponsor for the companies that I sign.

What types of services does Talkspace offer? Does Talkspace offer group therapy, couples therapy and children's counseling in addition to individual therapy? Do you offer specialties, such as therapy for elders, family therapy, race, LGBTQ+ and the like?

Talkspace provides three core services: our foundation is online therapy where individuals match with a therapist. The individual does one-on-one counseling online via both asynchronous messaging with their therapist and live video and audio sessions. We also offer online psychiatry via live video sessions. This includes ongoing medication management. And we also have a wonderful newer service that we released in the last couple of years called Talkspace Self-Guided, which is a self-help, mental health, psychoeducational and wellness app with over 80 program topics (like depression, anxiety, holiday stress, workplace conflict) and over 500 different activities (like meditation, surveys, videos, journaling, deep breathing, gamification and more) along with weekly live group classes.

Talkspace is able to work with anyone 13 years and older, with the exception of psychiatry, which is 18 years and older.

All of our programs and services are developed in a way so that they can be flexible and address specific needs and services based on race, gender, identity, ethnicity, age, specific diagnoses or the presenting problem area, etc.

We do not offer group therapy, although we do offer live group classes in our Self-Guided service. We offer couples therapy through our consumer channel and we offer couples and relationship counseling on the Self-Guided app.

What types of issues bring patients to Talkspace? Anxiety, depression, OCD, ADHD?

Talkspace tends to be attractive to individuals suffering from mild to moderate mental health issues or searching for personal development and wellness needs. The most popular diagnoses on our platform are depression and anxiety. However, Talkspace also tends to work well for individuals with PTSD, mild to moderate alcoholism and substance abuse, stress-related problems and family issues. We have the capability to work at all levels of care that don't require intensive outpatient treatment or inpatient care.

How do you recruit your therapists?

For many years clinicians have been coming directly to us through our website and digital marketing efforts. However, we have an entire division of the company dedicated to recruiting clinicians, which we do both online and through events. We also try to recruit clinicians from a broad variety of demographics, ethnicities, gender, identities and the like to represent our client base most effectively.

Do you also work with psychiatrists? If so, can they prescribe medicine virtually?

Yes, Talkspace offers online psychiatry as one of our three core services. This is all conducted via live video, which includes monthly medication management. Our network of psychiatrists and licensed psychiatric nurse practitioners render a and prescribe medication as needed. However, we do not prescribe controlled substances of any kind.

How do your rates work? Is there a sliding scale?

For consumers who come to Talkspace on their own and pay privately and out-of-pocket, there is no sliding scale. We have standardized pricing on our website. Through our advertising efforts and our online promotional discounts, we aim to make our services as affordable as possible, especially for people who are looking to get started for the first time. For individuals who have Talkspace in their health plan through their work or via family members, the same costs are incurred

as traditional mental health benefits. So, an individual would have whatever their normal mental health co-pay would be or it would go to their deductible. When we work with businesses, we charge what's known as a PEPM charge – or per employee per month. For students, it's PSPM. In these instances, the end user, employee or student and the like gets the service completely for free and we see much higher utilization in these partnerships.

We've been hearing a lot about the worldwide mental health crisis. Why do you think the mental health crisis has exploded? How much has the pandemic contributed to this? What about politics?

Prior to the pandemic, we were quite aware of the increasing volume of mental health issues around the world, and specifically in the United States. There are many theories around this, ranging from the fact that we are better equipped to diagnose mental health issues, and we can do so at earlier ages. People are more aware of their mental health needs and are increasingly more open to accessing mental health care. As a society, we are getting better at making mental health more acceptable and less stigmatized. There is also a lot more stress and conflict in the world, especially in this country. The political and social climate in the past decade has increased levels of stress, which in turn has an effect and impact on mental health.

According to the NIC, fraternity members experience stronger mental health and wellness.

Then there's the pandemic … which elevated levels of stress and mental health to epidemic proportions. This shone a very necessary light on the mental health needs of employees, students, families and just people in general. However, it has also increased the demand for services and created a shortage of available therapists and psychiatrists. Companies like Talkspace (which were already set up to make therapy easier to access and provide therapists with a way to to conduct therapy in a more convenient way), have helped with this clinical shortage. However, this seems to be a problem that just won't completely go away. I suspect that in the future, there will be continued innovative ways to deliver mental health care without creating an overwhelming strain on therapists' time.

What drew you to work at Talkspace? What was your previous experience in this area?

My background as a clinician and my skill set for developing business partnerships led me to take the job with Talkspace. It was such a good fit. However, my deep passion for mental health care and helping others drives me because I've been able to make quality mental health care more accessible for millions of people.

Do your therapists have goals for their clients? Or is therapy more open-ended?

Talkspace therapy is set up in the traditional person-centered therapy model where therapists address each client individually and uniquely. They evaluate their specific needs for care on a case by case basis. Having said that, we require a therapist to use the treatment plan model, where there is a system of goals, objectives and action steps to achieve them. Those can be very detailed and diverse, or it could just be one basic goal like "reduce stress. "It's up to each individual and therapist and the work they're doing together. These goals, objectives and action steps are documented and measured.

What are the benefits of online therapy as opposed to in-person therapy?

More affordable and better and quicker access to care, reduced stigma, convenience, flexibility and quality control.

What are some of the overall benefits of therapy, both long-term and short-term?

Primarily, the reduction of symptoms of the individual's core specific diagnoses or problem area. However, in a more general sense, the overall benefits of therapy are: feeling better, an impact on physical health, better relationships and a better workplace experience and productivity. For students the result is better school performance and socialization. People who have been in therapy often experience, higher levels of confidence, self-awareness, a sense of personal responsibility and better interpersonal, familial and work-related relationships.

How do you connect Talkspace clients with an appropriate therapist? What is involved with your intake process?

We use a brief (90 second/eight question) online survey to understand the individual's problem area, location (state) and other demographic points and their needs and wants in a therapist. This information goes into our proprietary algorithm, which produces the best therapist match for the client very quickly. It takes between a few hours to a few days at most. If the individual decides they don't like that initial assigned therapist, or they would like to switch at any point – on the first day, the 100th day, the 1000th day – they can do so at the click of a button on their personal dashboard on Talkspace. Then the person can have a variety of nine or more therapists to select from that are also a very good fit for them.

Outside of the survey, there is a separate brief intake process that occurs once the individual has signed up for a Talkspace account after selecting their therapist. This involves obtaining informed/signed consent to conduct therapy services, a brief, multiple-choice, medical and mental health history, obtaining emergency contact information, etc. This is similar to the same types of forms one would fill out in the waiting room of a clinical therapist's office.

Does Talkspace offer crisis counseling?

By definition, we do not offer crisis, emergency or urgent care services. And before someone signs up, they will see that information displayed on our app and our website. It indicates that if they are in danger or feel like it is an emergency and need immediate help, then they should NOT use our service. We provide links to them for the general crisis hotline and a variety of other specialized crisis hotlines. It's very rare, but in the instance that someone develops a crisis while being treated on Talkspace, we have protocols in place for our therapists to handle that situation. This is done in the same way any private practice clinician would handle a crisis with their client. We also have a crisis hotline partner called ProtoCall that individuals can access 24/7/365.

Does Talkspace offer therapy and support for at-risk children? How about for adults and children with special needs?

Talkspace provides therapy for individuals 13 years and older. It is the same for our self-guided/wellness services. For individuals with special needs, using Talkspace varies … based on the level of those needs. However, the core element in regards to using Talkspace is being able to utilize a laptop or desktop computer and/or a smartphone to access our website and/or our app. Many individuals with special needs are able to utilize technology in their day-to-day lives either by themselves with gadgets or with assistance and they are able to access Talkspace in the same way. We have also completed regular ADA audits and testing and have made changes over the years to comply. Therefore, we have increased accessibility for people with specific needs such as being hard of hearing, having diminished eyesight and the like.

Why do so many people view the need for therapy as a "weakness?" If someone is sick with a physical disease, they will go to a doctor. If someone has an emotional, spiritual and/

or mental illness, why do you think so many people won't get the help they need?

Unfortunately, mental health in our society (and in many societies) is looked at differently from physical illness. There is often an overarching thought process that we have more control over our mental and emotional state, well-being and behaviors. But that is simply not the case. However, our society has stigmatized mental health problems in a very shaming and blaming way. This causes people to hide their problems and it also prevents them rom seeking the care they need. This also causes others to ignore what are obvious signs of mental distress and avoid awareness of these issues in their loved ones.

As a society, we are continually getting better at being more open to the mental health needs of ourselves and others and much more accepting that mental health care is normal. One of my colleagues referred to the pandemic as "the great educator" when it comes to mental health so we've seen some pretty big leaps and bounds in the normalization of mental health issues.

Do you feel that men are less likely to seek therapy?

Yes, men are three times less likely to seek mental health care than women. This is a well-known fact. There have been generations and generations of stigma in regards to men interpreting having any mental health issues as weakness. This is also evident in most male-dominated and patriarchal cultures. But again, over time, a greater percentage of men have been admitting and addressing their mental health needs. Many revered male figures have come out in the past decade and publicly admitted their mental health issues and subsequent path to addressing their needs through therapy. To me, one classic and very personal example of this is Michael Phelps, the most decorated Olympic champion ever. He is Talkspace's big celebrity endorser as well as a member of our advisory board. I've had the pleasure of working with Michael on several different occasions doing presentations and events for Talkspace. I've had the chance to interview him and speak with him one on one and he has opened many peoples' minds and hearts up to the need for mental health care – not just for men, but for anyone.

Is there a general philosophy that you and your therapists have?

Therapy for all! (We want to make therapy more available, accessible and affordable for as many people as possible.)

Is there a recommended time frame that you suggest for your clients?

No, individuals using Talkspace can have success in dealing with and addressing a particular issue in just a few weeks but others may want to use the service for many months. We see successful treatment outcomes most often around the two-and-a-half to three month mark in therapy, which is close to half of what is seen for outcomes in more traditional in-person, office/face-to-face therapy situations.

You offer messaging support for your clients, too. How does this work?

Unlimited messaging between client and therapist is actually the core service that Talkspace started with. It's our biggest differentiator and the goal was to make therapy more convenient, affordable and accessible for both he client and the therapist. By using messaging as the primary therapeutic tool for client and therapist to communicate, it eliminates the fixed session time as the core component of care. This frees up the therapist to have more flexibility and availability to work with their clients throughout the day, rather than with only a limited amount of time-based sessions. Therapists can actually handle much larger caseloads and are much less stressed and burnt out.

Messaging is asynchronous, so it's not a live chat, but the therapist will always respond the same day. A client and therapist will often exchange multiple messages in one day. That's not required, though. The cadence (or frequency) of messaging stems from the needs of the client.

What do you think can be done to let people know that therapy and counseling can help?

As a society, I think we've already turned the corner. We are actively promoting mental health care services as well as normalizing the subject of mental health. More public figures and influencers speaking out about their own personal mental health struggles and accomplishments helps, too. It also helps for us to address mental health as normal. Making mental health services available for much younger ages helps in that it becomes part of the lexicon of life. This way, when an individual starts to feel symptoms that might indicate a mental health issue, they not only accept that it's okay to see a therapist, but they will also have knowledge and accessibility to those resources.

What do you suggest for brothers who are considering therapy?

First of all, give yourself credit for being aware of your needs and being open to getting help. That's the primary step to healing. Then check out the various available options on campus, online and in your community. See what fits you and give it a try. If you don't feel therapy is helping in your first experience with a clinician, don't be afraid to try another one. Sometimes the fit between client and clinician is not ideal, but it doesn't mean that therapy doesn't work. Sometimes people will work with several therapists for a little bit before they find that person they feel comfortable with.

What are your long-term goals for Talkspace?

As Talkspace continues to grow, we hope to continue expanding into larger business partnerships with corporations and universities. We also hope to eventually move into government systems and veteran affairs as well as partner with more health plans. We hope to build out our technology and products in a variety of different ways. Unfortunately, due to the proprietary nature of these items, I cannot get into more specifics here.

How and when did you decide to make Talkspace a publicly-traded firm?

While it wasn't my specific decision, "going public" was always the ultimate goal for our unique little start-up company. We decided to finally do it during the pandemic, as there was an opportunity to go public many years before we had expected. This was due to the massive increase in business we saw in 2020 and 2021. The timing was right and the investment dollars were available to make this happen, so we pushed forward. By going public, we could also expand our business faster and thus ultimately provide access to mental health care to many more people much sooner than we expected.

Dave Kasdan is the SVP of Business Development at Talkspace, an online therapy provider. Dave graduated from the Phi chapter at NYU in 1990, where he served as Phi. Raised in Washington, DC, he currently lives in Westchester County, NY with his daughter, son and their puppy, Millie.

If you would like to contact Brother Kasdan to discuss incorporating Talkspace into your business, please feel free to email him at dave.kasdan@talkspace.com.

Distinguished Service Awards

Barth Gillan received the Distinguished Service Award and was introduced by Corey Nicholson

Read Barth Gillan's Acceptance Speech Below

Thank you, Corey, for that kind introduction. It is truly an honour to be introduced by someone who is one of the great Canadian Zetes.

And happy birthday to Zeta Psi. In our 175th year it feels quite appropriate that we are recognizing both an American and a Canadian for the Distinguished Service Award – it is a great testament to the influence that Zeta Psi has had in Canada, and the influence that Canadians have had on Zeta Psi.

40 years ago, my life changed because two important things:

- In January, 1982, I was initiated into the Alpha Psi Chapter at McGill University. Corey Nicholson and Jeff Ball (both DSA recipients) were there. This was the beginning of my Zete "experience."
- In August, 1982, I attended my first Zete convention – in Chicago. Many of the DSA recipients that Greg McElroy mentioned being in attendance tonight were also there. This is what I consider to be the beginning of my Zete "journey."

As to my Zete "experience" and my Zete "journey," these sound similar. Aren't they the same thing? In my opinion, they are different. Here is why: the difference akin being a passenger in a car versus driving the car.

In other words, your Zete experience is what happens to you: initiation, graduation, saying "I was a Zete in college" and having your groomsmen at your wedding be Zetes. These are important events and they happen to all of us, but they are just events.

Your Zete journey is what YOU make of it: being an officer in the chapter, road tripping to another chapter, going to a Zete convention, becoming a leader in the elder chapter after you graduate, going to another convention and getting involved at the international level.

On my journey, I have met many great and interesting men and I have made a whole lot of friends in the process. Isn't that what being in a fraternity is supposed to be all about? We are all brothers, we are all equals and we can network and interact with people who we might otherwise never meet.

At the Convention that year, I had an opportunity to meet James H. McLaughlin (another DSA recipient). Jim founded the Zeta Psi Foundation of Canada. Unfortunately, Jim passed away later in 1982, but as an undergrad I got to meet him and I consider that part of my journey. Since, then I have attended lots and lots of conventions and I have met an admiral, priests, sandwich tycoons, a financial guru, an

Olympic athlete and as of today, a professional comic. The list goes on and I do them all a disservice by not referring to each of them individually.

At a convention you have the opportunity to meet people you would not otherwise. Take advantage of that opportunity because any Zete here will take the time to talk to you if you make an effort. At a convention, we are not measured by our titles – we are all brothers. And, as I learned in 1982, this might be your only chance to talk to one of them. Some of the great men you meet at a convention have been DSA recipients, but the majority of them are not– yet all of them – and all of you – have had an influence on me.

I am the fourth brother from the Alpha Psi chapter to have served as Phi Alpha, but the DSA was introduced more recently. So I am the first brother from Alpha Psi to receive this distinction and I am pleased to have a number of my chapter brothers here tonight. Hopefully, one of them and some of you will continue your Zete journey down this path.

My journey began as a brother, but has continued for much of my adult life as a family man. I brought my wife Diane, who is here today, to her first convention in 1992 in Seattle. During the boat cruise we were looking for a place to sit down and eat. So we approached a table with some vacant seats. As we approached, the young men at the table saw Diane coming and all stood up. If there is anyone from the Omicron Chapter here tonight – you made her first experience such a positive one that she continues to come to conventions, and more importantly, she allows me to continue to come to conventions. My two daughters, Chelsea and Daisy, have grown up coming to conventions and have probably been to more than most Zetes. Zeta Psi is part of my family, and my family is part of Zeta Psi.

You might think that 1982 was the pivotal year since both my Zete journey and my Zete experience began then. However, I would like to recount a memory from 1984, when I was the Chapter Phi and Pope John Francis II visited Montreal on a cross-Canadian tour. The Chapter got up early the morning of his visit, and in true Zeta Psi "last minute fashion" began to make a sign to welcome the pope. We connected a series of Molson party posters together, and on the blank side we wrote In Domino Confido – "I Trust in the Lord." This phrase appears in the McGill crest because it was the personal motto of James McGill, the founder of McGill University, so we thought it was an appropriately symbolic way to greet the Pope.

As the Pope was coming up the street in the Popemobile he noticed the Polish flag flying outside the Polish Institute, which was three doors down from the Zete House, so he waved to all of the people cheering him in Polish. As he continued up the street looking in our direction we waived our sign which made him smile, and we boisterously toasted him with Bloody Caesars (because drinking a Bloody Mary seemed too sacrilegious). He waved and blessed the Zete house as he continued up the street. Little did we realize, but the Newman Center, or Catholic Students Association, which was across the street, had made a beautiful tapestry to commemorate the Pope's visit, but the Pope didn't see it as he was reading our sign made out of Molson posters. We trusted in the Lord.

You can judge a man by the company that he keeps. I hope to be judged by the Zetes who have made my experience into a journey. If this is your first Zete convention, get your passport stamped and let this be the first step in your Zete journey. If this is not your first convention, don't let your journey end now.

Thank you for this recognition. I am truly humbled to be associated with these great and august men.

Greg McElroy presented the Distinguished Service Award to Andy Nunez

To see the ceremony and Andy's speech, scan the attached QR code.

Notable Zetes *Throughout The Years*

Banaszek , Casimir Joseph "Caz"
Achievements: 11 season NFL career with the San Francisco 49ers as an offensive lineman. He was an assistant offensive line coach for the 49ers in 1981, when the team won Super Bowl XVI.
Chapter: Omega, 1967 (Old University of Chicago)

Budion, John J.
Achievements: Writer and Director of the film "Rockaway." Recognized by Zeta Psi as Zeta Psi "40 Under 40" in 2020.
Chapter: Phi, 2003 (New York University)

Cain, Dean
Achievements: Actor, Producer. He is best known for playing the role of Clark Kent/Superman in the TV series Lois & Clark: The New Adventures of Superman (1993-1997). Cain was the Producer/Host of Ripley's Believe It or Not! (2001-2003).
Chapter: Omicron Epsilon, 1988 (Princeton University)

Clouston, James Campbell
Achievements: Canadian Commander in the British Royal Navy. Acted as piermaster during the Dunkirk evacuation. While returning to Dunkirk, he died in the water after his motor launch was sunk by enemy aircraft. On July 11, 1940, Commander Clouston posthumously received a Mention in Despatches for his part in the Dunkirk operation. Clouston is mentioned by Charles Gray in the 1958 film Dunkirk. He was portrayed by the actor William Hope in the 2004 BBC series Dunkirk and his actions inspired the character of "Commander Bolton" in Christopher Nolan's 2017 film, Dunkirk. Parks Canada installed a plaque in Montreal honoring him for his role in the evacuation at Dunkirk.
Chapter: Alpha Psi, 1917 (McGill University)

Gibson, Duane "D.O."
Achievements: Author, "Stay Driven." On July of 2003, D.O. set a Guinness World Record by freestyling for eight hours and 45 minutes. Brother Gibson is also a motivational speaker.
Chapter: Theta Xi, 2001 (University of Toronto)

Grange, Harold "Red"
Achievements: "The Galloping Ghost." He is a charter member of both the College and Pro Football Halls of Fame. Namesake of Zeta Psi's Red Grange Athlete of the Year A three-time consensus All-American who led his team to a national championship in 1923. In 1924, he became the first recipient of the Chicago Tribune Silver Football Award as the Big Ten Conference's most valuable player. In 2008, he was named the best college football player of all time by ESPN and in 2011, he was named the Greatest Big Ten Icon by the Big Ten Network.
Chapter: Alpha Epsilon, 1926 (University of Illinois)

Grant, Jon K.
Achievements: Former Chairman and CEO, Quaker Oats of Canada (1976-1993), Trustee of the World Wildlife Fund of Canada, Officer the Order of Canada (May 1, 2002). Chair of the Ontario Round Table on the Environment and the Economy (1990 to 1992), Chair of the Nature Conservancy of Canada (2003 to 2005).
Chapter: Theta Phi, 1959 (Western University)

Greig, James Montgomery
Achievements: 2022 Red Grange Sportsman of the Year honoree. A member of the University of Toronto Varsity Blues Football Team. Was named the 2021-2022 Defensive Player of the Year at the University of Toronto and named by PRSVRE (a university sports media outlet) as the University of Toronto's top breakout player and most valuable player on the team.
Chapter: Theta Xi, 2023 (University of Toronto)

Hebb, Peter Harvey ("Hebby")
Achievements: Zeta Psi Delta Alpha, 1965-1967. Past president of the Vancouver Community Arts Council, past vice-president of the Vancouver Playhouse Theatre. He raised monies for the Vancouver Symphony Orchestra. For community service, he was awarded the Commemorative Medal of the 125th Anniversary of the Confederation of Canada.
Chapter: Sigma Epsilon, 1963 (University of British Columbia)

Kinsey, Dr. Alfred
Achievements: Founder, Kinsey Institute for Research in Sex, Gender and Reproduction. Author, Sexual Behavior in the Human Male (1948) and Sexual Behavior in the Human Female (1953). Co-author of Edible Wild Plants of Eastern North America (1943) (original draft written in 1920).
Chapter: Lambda, 1916 (Bowdoin University)

Lancey, PFC Robert Douglas
Achievements: A member of the 653rd Engineer Topographic Battalion, Company A, tenth Engineer District, where he received instruction for surveying, cartography and printing. The 653rd eventually produced and delivered a staggering 9,948,000 maps and related navigation sheets including target maps for the 14th Air Force, the Royal Air Force, XX Bomber Command and the Eastern Air Command.
Chapter: Gamma, 1942 (Syracuse University)

Matisz, John M. J.
Achievements: Canadian National Hockey writer for multiple publications. Author, "Draft Year: Brendan Gaunce."
Chapter: Theta Eta, 2011 (Brock University)

Matthews, Billy
Achievements: NBC Sports & Olympics (1987-present), director and producer.
Chapter: Delta, 1988 (Rutgers University)

Mayer, Jr., Alexander "Sandy"
Achievements: 1972 Winner (with fellow Zete) Roscoe Tanner of the NCAA Tennis Doubles Championship. 1973 NCAA Men's tennis champion in singles and with fellow Zete James Delaney, doubles. Ranked as high as #7 in the world on the ATP Men's tennis tour. Champion, 1975 Men's doubles at Wimbledon with Vitas Gerulatis. Champion, 1979 French Open Men's doubles with his brother, Gene Mayer.
Chapter: Mu, 1974 (Stanford University)

O'Malley, Shaun
Achievements: Former CEO, Price Waterhouse. 2000 Inductee into the Accounting Hall of Fame.
Chapter: Sigma, 1959 (University of Pennsylvania)

To see more Notable Zetes, scan the attached QR code.

Parker, James
Achievements: A major general in the United States Army and a Medal of Honor recipient for his role in the Philippine–American War during 1899. In addition to the Medal of Honor, Major General Parker was awarded the Distinguished Service Medal and three Silver Stars for his service and battlefield exploits.
Chapter: Delta, 1875 (Rutgers University)

Perry, Thomas E.
Achievements: Author of over 28 novels. 1983 Edgar Award from the Mystery Writers of America for Best First Novel. In 2002 he was the first recipient of the Gumshoe Award for best novel.
Chapter: Psi, 1969 (Cornell University)

Reed, Darren Arthur, A/K/A Dizzy Reed
Achievements: American musician and occasional actor. He is best known as the keyboardist for the rock band Guns N' Roses, with whom he has played, toured and recorded since 1990.
Chapter: Psi, 2006 (Cornell University)

Renaud, Chris
Achievements: Hollywood Director and Animator. Director of "Despicable Me" and "The Secret Life of Pets." Two-time Oscar Nominee (2007 & 2014). Winner, 2007 Annie Award for "No Time for Nuts."
Chapter: Gamma, 1989 (Syracuse University)

Shea, William
Achievements: NYC Attorney, namesake of Shea Stadium. Founder of the Continental League -- a proposed third Major League, which forced the expansion of MLB and led to the formation of the NY Mets. Instrumental in convincing the NHL to expand and award a franchise to Long Island (the NY Islanders). Namesake of the "The William A. 'Bill' Shea – Distinguished Little League Graduate Award" which is presented to a former little leaguer in Major League Baseball who best exemplifies the spirit of Little League Baseball.
Chapter: Phi, 1930 (New York University)

Sinclair, Dr. Alexander C.
Achievements: Brother Sinclair joined the Canadian Expeditionary Forces in 1915 at the age of 33. He was a driver who worked with horses and pack mules to bring ammunition to the front lines. While serving in Belgium and France, Alexander wrote a number of poems that captured the horrors of war and included famous battlegrounds such as Vimy Ridge and Passchendaele. The poems were published posthumously by his nephew as "Life and War Poems by Alexander Sinclair."
Chapter: Pi Epsilon, 1929 (University of Manitoba)

Strain, Matt
Achievements: Author, "Will Rhyme for Diapers: Baby Poems for the Parents Who Raise Them."
Chapter: Beta Tau, 2004 (Tulane University)

Tanner, Roscoe
Achievements: Professional Tennis player. Winner, 1970 US Amateur Championships, and the 1977 Australian Open. Runner up at Wimbledon 1979. His 153 mph serve was the fastest ever recorded in tournament competition from February 1978 until September 2004.
Chapter: Mu, 1972 (Stanford University)

Trillin, Calvin
Achievements: Journalist, humorist, food writer, poet, and novelist. Chairman of the Yale Daily News while a student at Yale. Recipient, Thurber Prize for American Humor, 2013.
Chapter: Eta, 1957 (Yale University)

Troubetzkoy, Prince Alexis Sergeevich
Achievements: Author notable for his works on Russian history. Served as the headmaster of Selwyn House School, Appleby College and the Toronto French School in Canada. He was born as a Prince of the Trubetskoy family. He taught at Bishop's College School and served in the Royal Canadian Navy for eight years. He served as the Executive Director of the Tolstoy Foundation 1992-95. He also helped the International Orthodox Christian Charities gain the release of two of their workers taken hostage.
Chapter: Alpha Psi, 1957 (McGill University)

Those crazy Gamma elders (many in orange...of course) and their many friends from the overseas chapters

Zeta Psi
Educational Foundation

Together We Are Growing Our Brotherhood

Letter from the **Foundation President**

Dear Trustees of the Board of Zeta Psi Educational Foundation and its members,

This missive will remind us of how far we have come over the past five months and where we hope to go in the future. With our strategic plan in place and with a world that shifts like sand on a windy beach, keeping focused on what truly matters is especially important.

With this in mind, I'd like to remind us all about the Foundation's mission:

1. Our Foundation's mission is to support our members in their journey to become better men, who in turn will hopefully make the world a better place. Let's never forget our fundamental objective – that we are not only focused on our membership, but that we have obligations to our communities at large.

2. We must also continue to focus on our communication and outreach. It is not enough to do good work – it is important for our members to understand what we deliver for them every day.

3. To that end, our key initiatives are:

   A. **Archive Digitization:** This will bring our collective history to our membership and the world in creative and engaging ways.
   Our message of Love, Honor, Friendship and the like should always be with us.

   B. **Scholarship Expansion:** Reaching more members who are in need in impactful and meaningful ways should be central to our mission.

   C. **Expanding and Enhancing Membership Education:** Expanding access to membership education via our Learning Management System (LMS) by building more content and adding more certifications is vital.

   D. **Building a New Mentorship Platform:** This will be aligned with our Membership Education initiative as we identify areas of practice, develop a better internship hub (ZeteConnect) and ultimately create a mentorship system. This will give our members access to guidance and support throughout their careers so that they can look back and say, "I am where I am because of Zeta Psi."

   E. **Improving Alumni/Member Relations:** Creating active channels so that we can receive feedback from our actives and alumni leaders. This will help guide our actions and enhance overall participation, as we are all in this together.

In addition to these major initiatives, we continue to tackle additional projects that we hope will make life easier and more enriching for our members. For example, we have made slow, successful progress towards revamping our Regional Alumni Club (RAC) model. The RAC will serve the fundamental purpose of connecting Zetes who reside in the same geographical area. Connection, after all, is the point. Furthermore, we have been fielding suggestions about additional educational events and competitions outside of our typical LTI program. One of our first will be a Zeta Psi Pitch competition, which will help support the skills our members need in regards to pursuing entrepreneurship and other forms of leadership. Details to come!

Want to help? Go to https://zetapsi.org/get-involved/ or scan the QR code. As we continue to improve and enhance the value we deliver, please keep these objectives in mind. They will guide us.

Want to help? Scan the QR code.

Sincerely,

Maurice Ducoing, Cornell '03

Matt Kozlowski
(Campaign Consultant, Pennington & Co.)

In celebration of 175 years of brotherhood and with a look to our future, Zeta Psi announced its Now & Forever Campaign at the convention in Brooklyn, New York. This campaign will support equally strategic priorities that are important to the Zeta Psi Fraternity, the Zeta Psi Educational Foundation and the Zeta Psi Foundation of Canada.

Tom Roerden (Psi/Cornell) '83, the chairman of the campaign cabinet, launched the campaign publicly during the Grand Chapter Banquet on August 19th. Tom noted that as part of the Now & Forever Campaign, "we are celebrating 175 years of history, which has brought us to the 'now.' With the successful completion of the campaign, we will have the resources to be around for the next 175 years. That's the 'forever.'

This campaign seeks to fund five core priorities that align with the Fraternity's strategic plan and which will have a profound impact on our undergraduate members. Tom noted that "this campaign will bring our global brotherhood together and generate the financial resources to give Zetes the tools and skills to become leaders in their chapters, campuses and communities for the rest of their lives."

CAMPAIGN PRIORITIES

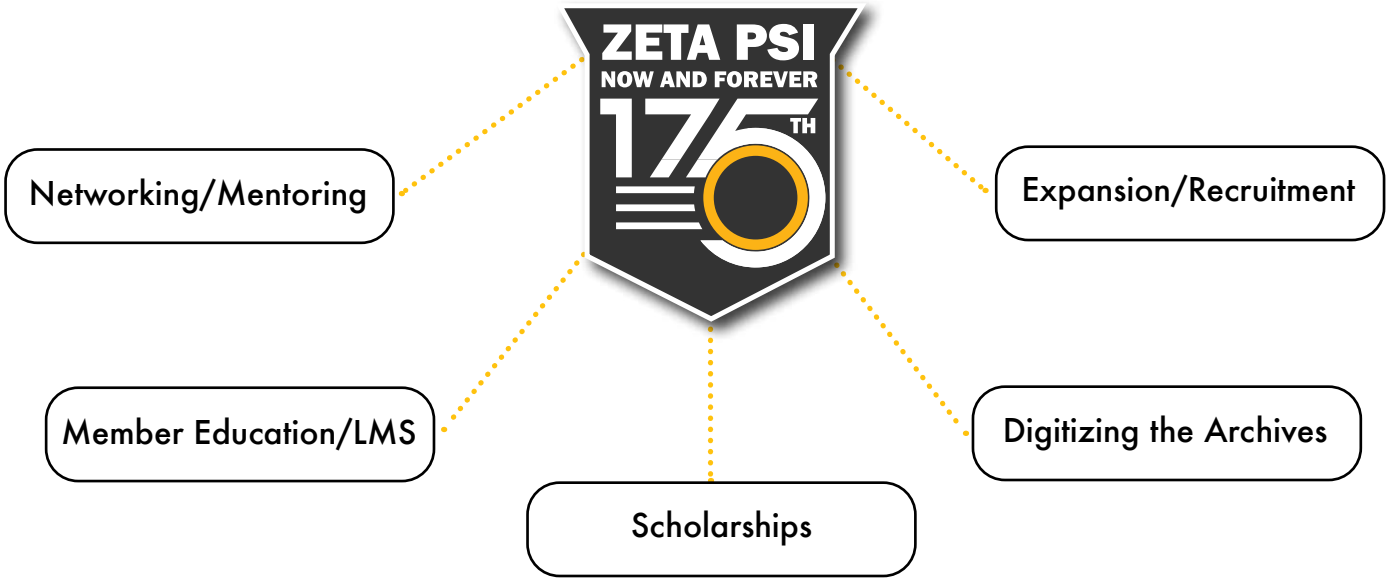

1. Networking/Mentoring
To provide mentorship, job and connection opportunities to all members through elder chapters and online resources, to increase active elder engagement with Zeta Psi post-graduation and to recruit the next generation of loyal leaders who will bring forward the legacy of Zeta Psi.

2. Member Education/Learning Management System
To share Zeta Psi membership's wealth of talent and knowledge with every member who seeks it by enhancing programs such as LTIs and to provide an online learning management system (LMS) that is accessible on demand to members around the globe.

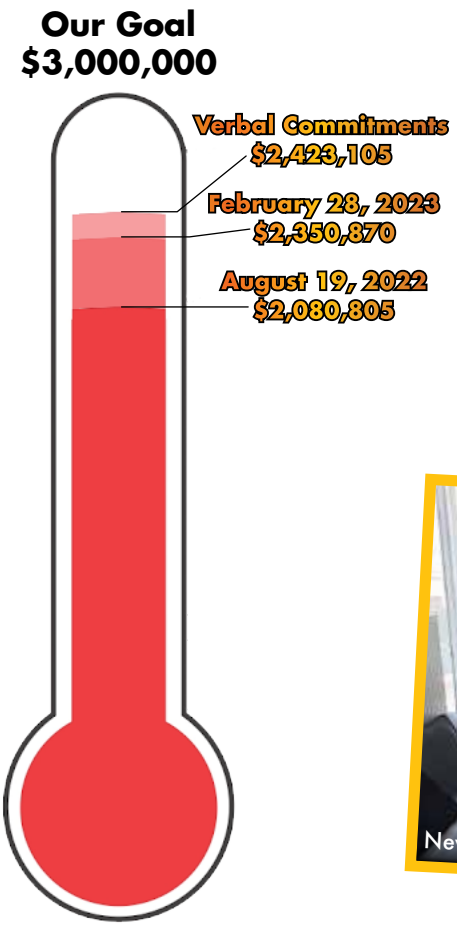

3. Expansion/Recruitment
To increase the reach and power of Zeta Psi by planting new flags and returning to dormant campuses with the support of professional recruiting consultants and to grow to 75 active chapters over the next five years.

4. Digitizing the Archives
To ensure the rich history of Zeta Psi is easily accessible to all members and preserved for future generations through a digital museum and searchable archive of Zeta Psi photos, documents and publications.

5. Scholarships
To increase the size of awards and allocate them to more students. More than $1.6 million in scholarships have been awarded to members in the last 20 years. We seek to provide individual student support to ensure financial concerns are never a barrier to a full and rich Zete experience by increasing our scholarship pool.

At the time of the launch, almost 90 generous donors representing 32 chapters had committed more than $2.1 million to the Fraternity, the Foundation and the Canadian Foundation. Zeta Psi appreciates their support and hopes that many more brothers will participate in this campaign as well. As Tom Roerden wrapped up the launch, he asked, "Brother, will you join us?"

Attendees at the 2023 Kirby Conference

Newly-Initiated Athens brothers

Tom Roerden, Chair, Now & Forever Campaign

To learn more about the funding priorities of the campaign or to schedule a conversation about how we can help you meet your philanthropic goals and strengthen the Zeta Psi legacy, please contact Barth Gillan (gillan@zetapsi.org), visit zetapsi.org/foundation/make-a-gift/now-and-forever or scan the QR code.

Scholarships in Review 2022

by Kevin Ziegler, Xi '16

Recent years have seen some incredibly challenging times for everyone - particularly students - as their academic, personal and professional lives have all been interrupted. Although everyday life seems to have returned to "normal," the financial needs of students remains high and continues to increase.

In 2022, the US Zeta Psi Scholarship Committee received 430 applications. Nearly 200 awards were issued and we distributed over $150,000 in grants. Awards were used to cover tuition, room and board, food, books and living expenses. Fall 2022 award recipients shared the impact these funds had on them: relieving the stress of financial burdens and the increasing cost of attendance, which gave the recipients the ability to purchase important books or subscriptions for class while shifting some time away from work. They were able to put this newfound time towards their academics.

The scholarship program would not be possible without the support of our donors, Foundation staff and volunteer graders: Evan Pressman, Alex Pruce, Alex Sharif, David Morris, Tom Leavens and Bob Baer. The team of graders successfully reviewed all applications within seven days, which enabled quick award determinations and ensuring that funds were distributed expeditiously.

Application numbers and their respective quality continue to increase while our ability to award grants remains relatively steady. To increase our support for students, the committee is working towards partnering with external organizations' community scholarship programs, sharing scholarship recipient spotlights with our donors and continuing to refine the emergency assistance program that was launched last year.

	Spring	Fall	Total 2022
Applications	253	177	430
Awards	89	102	191
Award Rate	35%	58%	44%
Total Awarded	$80,200	$70,450	$150,650

Scholarship Recipient Quotes (Fall 2022)

- "It was a big stress reliever."
- "It helped to relieve tension and stress and motivate me to do well."
- "Help from the Zeta Psi Scholarship Fund allowed me to pay for the expensive textbooks that I needed."

While much of the scholarships are funded through annual donations, specifc funds make up an increasing percentage of our awards. These funds helped support at least one scholarship this past semester:

The funds supporting the Fall 2022 scholarship awards were:

- The Jud Browning Fund (Alpha Pi/Virginia Tech)
- The Burkhardt Family Fund (Psi/Cornell)
- The Michael Davidson Scholarship Fund (Delta/Rutgers)
- The William R. Duryee Fund (top scholar)
- The Harold Finley Fund (Phi/NYU)
- The Virgil and Moody Gates Fund (Phi/NYU)
- The Tom and Donna Jewett Fund (Psi/Cornell)
- The Leila and William Mackay Fund (Phi/NYU)
- The McElroy Endowment Fund (IHQ Staff)
- The Red Motley Leadership Fund (leadership)
- The Omicron Epsilon Fund (Omicron Epsilon/Princeton)
- The Phi Epsilon Fund (Phi Epsilon/Maryland)
- The Psi Fund (Psi/Cornell)
- The Scott Puddy Fund (Eta/Yale)
- The Albert C. Valentine Fund (Phi/NYU)
- The Owen Williams Fund (Rho Alpha/MIT)
- The Witter Fund (Iota/Berkeley)
- The Zahn-Olmstead Endowment Fund (Alpha Epsilon/Illinois)

The Zeta Psi Educational Foundation has started several new chapter funds over the past year. Chapters that wish to discuss the creation of a dedicated chapter fund are encouraged to reach out to Barth Gillan. (gillan@zetapsi.org).

2022 Individual Awards

The following individuals and chapters have won and been presented their awards at the 175th Annual Convention in Brooklyn, NY.

Distinguished Service Award

Andrew Nunez Iota Alpha '94 (Texas)
Barth Gillan Alpha Psi '85 (McGill)

James J. Carey Leadership Award

Finances for the **Zeta Psi Educational Foundation**

Zeta Psi Staff at the 2022 Convention

Fraternity Audit

tinyurl.com/9ccf9hdm

Foundation Audit

tinyurl.com/5eeym2cn

The Foundation has been and will continue to be a careful steward of donated funds over the years – and this has given donors the confidence that their gifts will have a great impact. The Foundation's primary programs are support for scholarships and grants for educational purposes, support of the Leadership Training Institute programs both online and in person, and staff support to members and the chapters in academics, professional development, organizational development and service. The impact of these programs is highlighted throughout the Annual Report.

For the year ending May, 2022, the Foundation saw an increase in net assets despite a decline in our investment portfolio. The Foundation was the recipient of a major bequest from the Estate of Bruce Eckstein, Case Western Reserve '60, which was instrumental in helping the organization weather a disappointing investment market. This is the 25th anniversary of the Zeta Psi Heritage Society – and the donations that Foundation members have made over that quarter century continue to bolster our organization and its impact on students.

The Foundation takes a conservative approach to utilizing our investments. By policy, 4% of the three-year moving balance investment portfolio is annually expended to support the Foundation's activities. In addition, the Board has occasionally authorized additional expenditures from time to time to advance the Foundation. There are currently three of these projects underway – a project to improve our Salesforce database, the Now and Forever Capital Campaign, and the start of a project to digitally archive our organization's incredible history.

In 2022, the Foundation's Board selected Von Lehman and Associates as its new auditing firm. These audited financial statements are available at the QR code above.

Please take a moment to review the listings of donors to Zeta Psi for the past year. It is their generosity that makes the work of the Foundation possible.

Someone's sitting in the shade today because someone planted a tree a long time ago.

– Warren Buffet

The Heritage Society is Zeta Psi's planned giving society. Established in 1987 as part of Zeta Psi's 150th anniversary celebration, the Heritage Society now has over 400 members – people who are committed to the future of Zeta Psi.

There are many ways to make a planned gift to Zeta Psi in the United States, Canada and overseas. If you have already made plans to support Zeta Psi in your will, or if you would like more information on how to make a planned gift, please contact Barth Gillan (gillan@zetapsi.org or (845) 735-1847 x317).
